

Almaden Super Lions Club News Release

San Jose, CA., June 2 — Almaden Super Lions Web Development Team announced general availability of its updated website at www.almadenlions.org.

“Our updated website offers people an easy interface to see who we are and what we do. Our mission statement and contact information are on the front page to attract new members”, says Lion Wen Doong.

In addition to the appealing color theme, easy to use buttons and icons, the Web Development Team also implemented a “Lions Search Engine”. Web Developer Wen Doong says, “The Lions Search Engine is in its beta testing stage. It will search all the relevant topics based on the requested Keywords only in the Almaden Super Lions and Lions International Websites. We will add other Lions Clubs and 4C6 District Websites to the Lions Search Engine in the future.” As a test, we googled “Lions Bike Tour” on the Web. It returned 1.29 million results. Whereas, when we used the Lions Search Engine, it returned only 5 results with Almaden Super Lions Home page on top of the list. (The other four will be eliminated when Google updates their Index shortly).

The Almaden Super Lions Web Team plans to add video clips and other features in the near future. “We are happy that our website has had more than 300 hits since we rolled it out two weeks ago. With the Lions Search Engine, we hope it will become a “Portal to the Lions World””, says Wen.

About Almaden Super Lions Club:

Almaden Super Lions Club founded in 1956 is a member of the Lions Clubs International - the largest service club organization in the world! Our club is made up of 100% local volunteers who provide services to our local community and spreads throughout the world.
